Re: Letter of Recommendation

Our office space was in need of regular cleaning as our busy work schedules didn't allow us to keep up with our own cleaning. This, paired with the increased need for sanitation in and around our work stations as precautionary measures due to the pandemic, we contacted The Dream Clean a few months back. Their team was prompt with responding to our inquiries and scheduling, and when they were on site, they were efficient and quick – but still paid attention to detail and made sure every nook and cranny was taken care of!

We have been really happy with the result so far and because of their visits the staff also feel much more at ease knowing that the work environment is regularly cleaned and sanitized to provide another level of protection. Thank you The Dream Clean team!
